I. Remarks

After entry of the amendment, claims 2-8, 10-17, 19-31, 33-40 and 104-106 are pending.

Claim 1 has been canceled without prejudice.

The specification and claim 25 have been amended to correct the formula for N-oxo-N-nitrosamines. One skilled in the art would easily recognize that there was a typographical error in the Formula for N-oxo-N-nitrosamines.

No issues of new matter should arise and entry of the amendment is respectfully requested.

II. Elected Species

In the discussion between Special Programs Examiner Tsang and the undersigned, Special Programs Examiner Tsang requested that the Applicants identify exactly how the elected species falls within the scope of the compound of Formula (I).

The elected species has the following structure:

A

The claimed compounds of Formula (I) have the following structure:

III. "Misjoinder" of Invention

The Examiner objects to claims 2-8, 10-17, 19-31, 33-40 and 104-106 as being directed to a misjoinder of nitro and nitroso.

Applicants respectfully submit that there claimed compounds of formula (I) could easily contain both an -NO and an -NO₂ group.

Referring to the elected species discussed above, the elected species could also contain an -NO group if the R₇ substituent was -OD₁; and D₁ was Q; and Q was -NO.

Alternatively, the elected species could also contain an -NO group if the R₃ substituent was -OD₁, and D₁ was Q; and Q was -NO.

Alternatively, the elected species could also contain an -NO group if the R₅ substituent was -OD₁, and D₁ was Q; and Q was -NO.

Alternatively, the elected species could also contain an -NO group if the R₆ substituent was -OD₁, and D₁ was Q; and Q was -NO.

Applicants respectfully submit that it was unreasonable for the Examiner to restrict the claims to either nitro or nitroso when, in fact, the compound of formula (I) can contain nitro and nitroso groups at the same time. The Examiner has completely ignored the compounds of formula (I) that contain both an -NO and an -NO₂ group.

In view thereof, Applicants respectfully submit that the pending claims are in condition for allowance.

IV. Conclusion

Applicants respectfully request reconsideration and allowance of pending claims 2-8, 10-17, 19-31, 33-40 and 104-106.

Respectfully submitted
